**Gallatin City-County Health Department Update:** As of 10 AM this morning, there are no confirmed cases of H1N1 Influenza in Montana. However, there are now 286 confirmed cases in 36 states and we expect there will eventually be cases in Montana. Daily active surveillance calls to key providers are being made to monitor local seasonal influenza activity and identify any suspect cases of H1N1. The Health Department continues to monitor this situation closely, and is working with other members of the Unified Health Command (UHC) to provide a coordinated response.
